

C&W Tank Cleaning

Petroleum Pipeline Services

All employees are trained in D.O.T. 199 for petroleum pipeline work and part of NCMS quarterly unannounced random drug and alcohol testing.

C & W has successfully performed the following service for pipelines for over 27 years:

- Emergency spill response
- Tank cleanouts for API 653 inspections
- Line drains for valve changout or line repair
- Strainer basket cleaning
- Receiving end of nitrogen purges
- Receiving end of pigs and smart pig cleaning
- Assistance with line flow proover-loop testing
- Jetrodding plugged lines
- Supply portable pumps for tank transfers
- Daylighting (Hydroexcavation)
- Petroleum contact water removal from roof drains

Let our experience assist you in solving your problems!
